THE WARRIOR'S WAY

United® Cutlery's popular Honshu® brand is exploding with new products this year. Leading the Honshu® lineup are the full-tang tactical tanto and katana pieces, the perfect complements to the highly sought-after Honshu® wakizashi. If covert but discreet personal protection is what you're looking for, the Honshu® karambits will answer when you call. Each of these powerful, Honshu® blades is razor sharp and features rock-solid steel construction. Each Honshu® blade comes housed in a custom, top-quality sheath for convenient carry and storage.

New Honshu® Boshin® Black Damascus Swords

Made of black Damascus steel, they're covered in a whirlwind of ripples, waves and lines. To achieve these eye-catching, vividly contrasting layers, Honshu's master swordsmiths repeatedly hand-fire, fold and hammer weld two distinct high carbon steel varieties, sometimes for days on end. It's a slow, laborious process that has changed little since Damascus steel's development in the Middle Ages – no automation, every step diligently performed by hand. But the Boshin adds its own distinctive, modern twist; via an advanced process exclusive to Honshu®, the blade's contrasting layers are shrouded in myriad shades of mocha, umber and deep onyx black. The result is a dark, brooding blade that shines brighter than the rest. And, like a dark snowflake, each black Damascus blade is unique.

He rallied his forces to lead the main defense against the orcs and trolls in the ruins of ancient Dale, bravely wielding his sword in victory over the enemy.

The Sword of *Bard the Bowman™* features a hilt bearing design motifs of ancient Dale, with a pommel in the shape of twin bird heads and a leather wrapped grip embossed with an overlapping scaled feather pattern. The blade is adorned with engraved grooves.

Thranduil™ is a powerful Elf-Lord and a legendary fighter. King of the Woodland Realm, he rules over the northern lands of the great forest known as Mirkwood. Every detail is faithful to the movie prop, from the ornate relief patterns to the delicate metal fittings on the leather strap. The light reciprocates by bathing the crystalline lattice in a warm golden glow. Activated by a hidden button, the 100-lumen LED boasts a 50,000-hour lifespan and shines for an impressive 20 hours on just a pair of AA batteries (not included).

Centuries later in the Third Age, during the events of the Lord of the Rings™, Hadhafang™ would be taken up against Sauron's army once again – this time by a new bearer, Arwen™ Evenstar™, daughter of Elrond™. Hadhafang™ features a fluid profile marked by gentle curves and sleek lines; swirling vine patterns further the alluring motif. The storied sword's beauty and potency are surpassed only by that of its bearer, the charming yet ever-fierce Arwen™, which means "noble-" or "royal woman" in Sindarin. Arwen's moniker is echoed in the blade's Tengwar runic inscription, which – in English – reads, "This blade is called Hadhafang™, a noble defense against the enemy throng for a noble lady."
